

Welcome to City Hall of Love on [Decentraland](https://decentraland.org). Closeup invites you to a world where we rewrite the rules, where couples can be free to marry the one they love on blockchain and obtain an NFT certificate of marriage. A world in which we celebrate all unions.

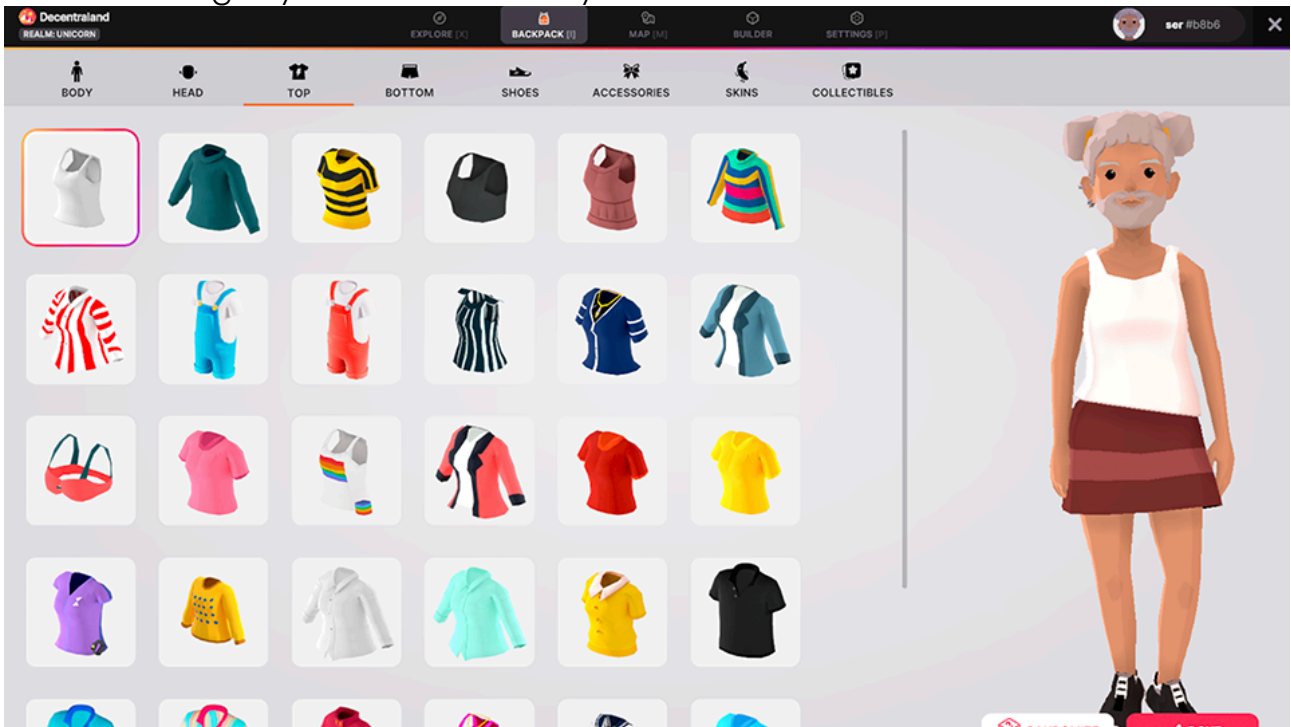

decentraland instruction for couples

Here is how to get there:

1. Decentraland is a desktop browser application. You'll need a Chrome or FireFox browser on your laptop or PC.
2. Both partners need to create a MetaMask wallet <https://metamask.io/download/> to be able to log-in to Decentraland to mint the NFT. Otherwise you are free to roam the grounds as a guest.
3. Log-in into Decentraland with your MetaMask wallet.

4. After log-in you can customise your avatars.

5. Follow the URL found on loveforall.info site and it will transport you directly to City Hall of Love.
6. Click on the Cupid angel that will guide you through the minting process. Kindly note that both partners need to be present in order for the NFT minting to work.

7. Congratulations on your newly minted NFT marriage certificate unique to only you and your partner.

closeup

Disclaimer: The NFT marriage cert is priceless and complimentary from Closeup. Gas fees to mint NFTs are inherent to Decentraland would still be applicable.
